

Energy sources - What types of energy do we use?

Name:

Date:

GRAPH 2:

% break down of the sources of renewable and non-renewable energy used in the world's richest countries and in Ireland.

Energy sources - What types of energy do we use?

Name:

Date:

GRAPH 2:

% break down of the sources of renewable and non-renewable energy used in the world's richest countries and in Ireland.

Read GRAPH 2: (PCM 9) and see if you can answer the following questions

1. List the sources of energy that Ireland uses, starting from the one that is used most, to the one that is used least.

2. List the sources of energy that the world's richest countries use, starting from the one which is used most, to the one that is used least.

3. What sources of energy does Ireland use more of than the world's richest countries?

4. What types of energy do the world's richest countries use but Ireland does not?
