

# 2017 Performance of the Large Industry Energy Network

Each year, members of SEAI's network report their annual energy usage and performance figures to SEAI.

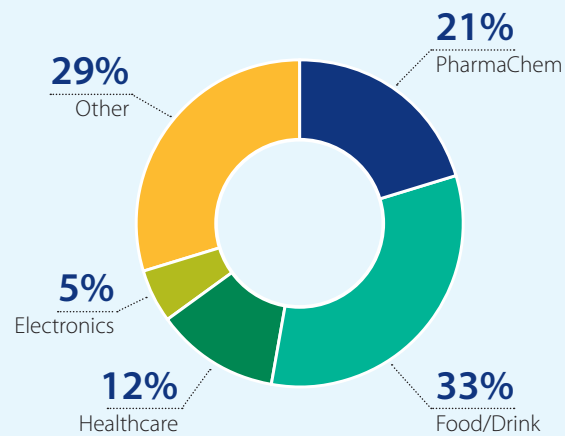

## The Network

**200**

network members

### NETWORK MEMBERSHIP BY SECTOR

**138,000**

people are employed by network members

**21%**

of national total primary energy requirement

## Energy Performance (Compared to 2016)

**5.4%**

energy performance improvement for the network members

**1,436 GWh**

reduction in primary energy consumption, at a time of increasing output

## Energy Saving Projects

**255**

projects implemented

**82,700**

tonnes estimated CO<sub>2</sub> emissions avoided

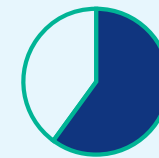

**€14.5m**

estimated energy spend avoided

## Performance of ISO 50001 certified members

**76**

members...

... accounted for

**60%**

of network energy consumption

**22%**

energy performance gains
