

30. Not with standing any other provision of these Terms And Conditions or any other document relevant to the Scheme, to the extent that the legal homeowner is receiving, has received and/or will receive funding from a relevant local authority in accordance with the Remediation of Dwellings Damaged by the Use of Defective Concrete Blocks Act 2022 and/or the Remediation of Dwellings Damaged by the Use of Defective Concrete Blocks Regulations 2023 (each as amended, revised or replaced from time to time) (the “**DCB Scheme**”) this clause applies to the legal homeowner.
- a) Any requirement (including under the Application Guidelines) that each measure being applied for has not been funded previously under any SEAI grant programme does not apply.
 - b) For the avoidance of doubt, it is not permissible to be funded from other government grant schemes, including the DCB Scheme, for the same measure which SEAI funding is being sought for. It may however be permissible to be funded for similar measures under another government grant scheme and from SEAI. For example, where the costs of the enhanced energy efficiency works exceed grant funding received from another government grant scheme, such as the “Enhanced” DCB Scheme, SEAI may fund the additional upgrade works. If you are unsure about the application of this “other government grant schemes” issue to you please contact SEAI.
 - c) Any SEAI requirement that the home must have been built before a specific date does not apply.
 - d) SEAI may accept an SEAI mandated declaration of works completed (“**DOW**”) from a Competent Building Professional (as defined by the Remediation of Dwellings Damaged by the Use of Defective Concrete Blocks Regulations 2023). Notwithstanding the foregoing or anything else contained in these Terms And Conditions, SEAI may undertake a verification check at the property to ensure that the relevant works have been completed and the legal homeowner shall provide all reasonable access and assistance as may be required.
 - e) Arising from the fact that you may also receive grant funding from a local authority it may be necessary for us to share your personal data with that relevant local authority. We will however only ever do this in accordance with, and subject to, applicable data protection laws and in accordance with the applicable scheme privacy notice.
